

**ITHACA
MODEL 66
SUPERSINGLE®**

ithacagun

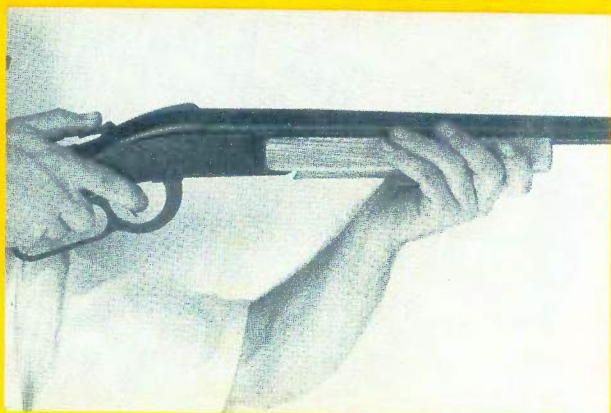

A General Recreation, Inc. Company

Operating Instructions

1. To open action, move lever down and open gun.
2. Insert shell into chamber.

3. With lever in "up" position, firmly close action.
4. To fire, pull the hammer all the way back until held in cocked position. To shoot, pull trigger.

5. To unload, open action and remove shell.
6. Safety is the rebounding hammer type. Gun is on "safe" when hammer is in lowered position. To put on safe with hammer cocked, hold hammer firmly, release trigger, and slowly lower hammer. Be certain your gun is pointed in a safe direction at all times.

Specifications

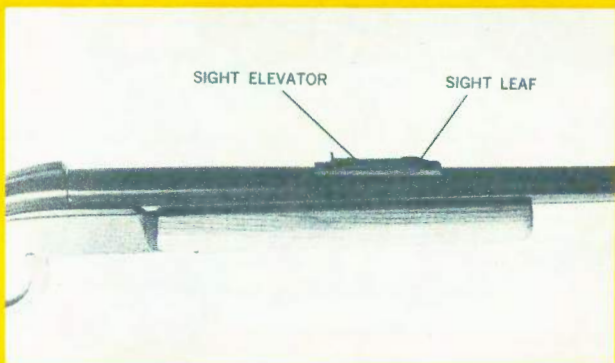

Gauge: 20 or 410

Chamber: 3 inch

Action: Lever

Safety: Rebounding hammer

Buckbuster® Sight Adjustment

1. If slugs shoot high, move rear sight elevator forward one or more notches. Fire again and adjust until slug strikes at desired point of aim. If slugs hit low, move elevator to the rear.
2. If slugs hit to the left, gently tap rear sight leaf, (where fastened to the barrel) to the right. Fire again and adjust as above until slug strikes at desired point of aim. If slug shoots right, the sight leaf should be tapped left. In adjusting for windage, be careful not to mar the finish in tapping the sights.

WARRANTY: Ithaca Guns are warranted against defects in workmanship and material for one year. Ithaca guns are designed, manufactured and proof-tested to specifications of factory loaded ammunition. There are no warranties which extend beyond the description on the face hereof.

CAUTION: Improper re-loaded ammunition can be dangerous. Ithaca Gun Company Incorporated cannot assume any responsibility for damages or injuries incurred through the use of non-factory loaded ammunition.

See your Franchised Ithaca Gun Dealer for the full line of Ithaca quality shotguns and rifles. For a copy of our latest catalogue write to Ithaca Gun Company, Department 70, Ithaca, New York, 14850.
